

# Install and set up application

1

Install the app on your mobile device using the links in the welcome email

2

Launch the app and get to the configuration screen

3

Tap the QR Code image in the app and use the camera to read the QR Code in the email

The app configures itself and starts downloading the data automatically. This might take some time

4

If this is the first time you are using MyService app, you have to perform the Join Now process.

After reading the QR Code, tap Join Now.

Use the Account Number available in the welcome email and follow the on-screen instructions

5

As a final step, if your device has TouchID capability, just enable it
